## PROFILE

---

Experienced and results-driven PHP & Laravel Developer with 5 years of hands-on experience in building scalable, product-based web applications. Skilled in backend development, RESTful API design, database optimization, and third-party service integration. Adept at writing clean, maintainable code following best practices. Strong problem-solving mindset with a commitment to continuous learning and delivering high-quality solutions.

## PROFESSIONAL EXPERIENCE

---

### Full Stack Developer

- Developed and maintained multiple **Laravel-based web applications** for both internal tools and SaaS platforms.
- Designed and implemented **RESTful APIs** for mobile and web clients, ensuring robust **authentication, authorization, and data security**.
- Integrated **third-party services** such as **Stripe, PayPal, Firebase Cloud Messaging, and Google OAuth** for extended application functionality.
- Enhanced user experience by implementing **AJAX-based filtering, pagination, and real-time data updates**.
- Optimized complex **MySQL queries**, leading to improved application performance and reduced server load.
- Collaborated with frontend developers to build **responsive, mobile-friendly UIs** using **Blade templates, CSS, and Bootstrap**.
- Handled **server-side tasks**, including **deployment, SSL installation, domain configuration**, and managing **basic AWS services** (like EC2, S3, or RDS).

03/2021 – 06/2025

## PROJECTS

---

### Online Quiz Platform

**Tech Stack:** React, PHP, MySQL, jQuery, Bootstrap

- Built a **responsive quiz platform** featuring **real-time rewards, leaderboard tracking, and topic-based quizzes**.
- Implemented **secure user authentication** and a **scalable backend** to support high daily active users.
- Used AJAX and jQuery for dynamic quiz rendering and improved UX.

### Music Player Admin Panel

**Tech Stack:** PHP, MySQL, JavaScript, REST API, Bootstrap

- Developed a complete **admin dashboard** to manage music content: **artists, albums, playlists, categories, and users**.
- Built **RESTful APIs** to seamlessly connect with a frontend music player.
- Ensured robust CRUD operations and data validation for content management.

### Event Management System

**Tech Stack:** Laravel, MySQL, Blade, Bootstrap, REST API, Android

- Created a **full-stack event management solution** with an **admin panel, public-facing website, and Android mobile app**.

- Designed and integrated **RESTful APIs** for synchronized data sharing across web and mobile platforms.
- Implemented **event filtering**, custom fields, and **CRUD features** for efficient event handling.

## SKILLS

---

### Frontend Development

HTML, CSS, Bootstrap, Blade Templating, jQuery, Responsive Design

### Database Management

MySQL, Query Optimization, Schema Design, Joins & Indexing

### Version Control

Git, GitHub, GitLab

### Real-time Functionality

AJAX, Real-time Updates, Filtering, Pagination

### Communication

Team Collaboration, Project Discussions, Client Interaction

### Backend Development

PHP, Laravel, MVC Architecture, API Development

### API Integration

Stripe, PayPal, Google OAuth, Firebase Cloud Messaging

### Server Management

Deployment, SSL Setup, Domain Config, Basic AWS (EC2, S3)

### Problem Solving

Debugging, Troubleshooting, Code Optimization

### Adaptability

Fast learner, Staying updated with new tools & frameworks

## LANGUAGES

---

English

Hindi

Gujarati

## INTERESTS

---

Music, traveling, and exploring new cultures.
